New APA-Atlanta Interactive Website Heads List of League Improvements for 2007

Our extensive effort has now paid off! We are debuting our new interactive website that has been in development for months. Not only does the site have a new look and feel, we have incorporated many of the features that have been requested for some time, as well as other features we hope will leave you pleasantly surprised. The website is free to use for anyone, but most of the features that show team and player information can only be accessed by registered users, so the sooner you register (it's FREE!), the sooner you can surf our new site. After you register, you can now see your personal statistics, rosters, schedules, and other cool stuff like our APA Atlanta calendar. We also included a player driven community forum where you can post and reply to other registered users.

It's easy to register. You must have an active email account on file with us, you must know your birthday, and you must know your player number. Simply go to www.apa-atlanta.com and click on 'create your account' on our home page (find the 'create your account' link at the top of the page under the rack of balls), follow the instructions and you are done!

Some problems that players seem to be having are:

- 1) **Players don't know their player number.** Use only your five digit player number to register. If not known, contact our office or write it down directly from your weekly scoresheet or, GASP!, pull out your membership card and use that to get your player number.
- 2) **Incorrect or missing email addresses** - make sure that we have a valid email address on file for you that is **SPELLED CORRECTLY!**. You can email the office with the correct email or phone us to make the change in your player record. Note: you will have to be able to retrieve email from the account you give us - part of the process requires you to click a link to activate your account.
- 3) **No activation email received from our website** some ISPs and/or portals (for example yahoo.com) may interpret our activation link as spam and you will never receive it. Add apa-atlanta.com to your al-

Register and you can:

See your own APA stats...

See your team standings

See your team schedule

Post and reply to our community forum regarding issues important to our league

Lots of other features as well!

lowed list and you should be fine. If you still cannot get in, send the office an email using the account you used to register and we should be able to activate your account.

- 4) **Players don't remember their birthday.** Believe it or not, this can happen... - and does! Call us to make sure we got it right.

Fun Fact

Do You Know Who Your Co-Captain Is?

In the APA, the name at the top of your roster is the Team Captain. The name directly under the Captain's name is the Co-Captain! It is that simple. If your team has another person they intend to be Co-Captain, just let the office know and we will re-arrange the names on your roster.
